

How to Flash the MAG-BOARD Using Flash Tool

1. Run **Flash Tool** and select **Chip Type: ESP32**. Leave all other settings unchanged.

2. Connect your **MAG-BOARD** to your computer using a USB cable.
3. Select the file "**deluje.bin**", check the corresponding checkbox, enter the flash address **0x00**, select the correct **COM** port, and finally click "**START**"
